design Vincenzo Missanelli 2007

essenzialità nella forma, espressione nella luce

Una cornice di luce semplice e funzionale dal design essenziale, che si adatta e si integra in ogni ambiente, sia residenziale che contract, sviluppata nelle sue parti elettriche con lampade di ultima generazione, per garantire luce e risparmio energetico.

simplicity inform, expression in the light

A frame of light from the simple and essential design, which adapts and integrates into any environment, both residential and contract, in its electrical parts developed with the latest generation bulbs, to provide light and energy savings.

Einfachheit in der Form, Ausdruck in das Licht

A frame of light from the simple and essential design, which adapts and integrates into any environment, both residential and contract, in its electrical parts developed with the latest generation bulbs, to provide light and energy savings.
